

SAFETY TIPS FROM SAFEWAYS

1. Keep your unit doors and windows locked at all times.
2. If your unit has sliding doors or windows, keep the bar locks in place.
3. If you see a light out around your building or anywhere on the property, report it to management in writing.

4. Make sure to keep your car locked up and valuables stowed away and out of sight.

5. Do not leave your car running to warm it up. You risk getting a ticket or having your car stolen.

6. Report any broken blinds to management and keep your blinds turned so you can look down through to see the ground. This stops burglars from being able to see into your apartment.

7. Report individuals who don't belong on the property to your apartment manager.

8. Ask your manager to join the District Attorney's Anti-Trespass Program.

9. Do not leave boxes from expensive purchases around your unit door or on your patio/balcony.

10. Report any suspicious activity to police at **545-COPS!**
